EXAMINER'S COMMENT

After carefully reviewing the instant Application, it is noted that claims 67 and 78 are considered to be generic to at least two Species of Figs. 35-36 and Figs. 40-41. In view of this, Claims 67 and 78 are generic and allowable. Accordingly, the restriction requirement as to the encompassed species is hereby withdrawn and claims 73-74, 81-101 and 103-104, directed to the species of Figs. 5, 7-15, 17-34, and 37-104 are no longer withdrawn from consideration since all of the claims to this species depend from or otherwise include each of the limitations of an allowed generic claim.

In view of the above noted withdrawal of the restriction requirement as to the linked species, applicant(s) are advised that if any claim(s) depending from or including all the limitations of the allowable generic linking claim(s) be presented in a continuation or divisional application, such claims may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application. Once a restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 44 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

Allowable Subject Matter

1. The following is an examiner's statement of reasons for allowance: Claims 67-74, 76-101 and 103-104 are considered to be allowable over the prior art of record, since prior art of record fails to show or fairly suggests an image system having, *inter alia*, a semiconductor substrate including a p- type impurity base layer and a p+ type impurity layer formed thereon, and wherein the array of image sensors is formed in said P+ type impurity layer as described in an independent claims 67 and 78.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Aung S. Moe whose telephone number is 571-272-7314. The examiner can normally be reached on Flex.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Edward F. Urban can be reached on 571-272-7899. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
